

Together We Can!

Volume 1, No. 2
July 2023

– Helping Families Fighting Childhood Cancer –

Welcome! This is our second UP Lions Serve (UPLS) Childhood Cancer Newsletter for “Yooper” families, our supporters and partners, and anyone who has an interest in childhood cancer.

We are so grateful for all of you. Thank you all for your time, your donations and the resources that you have shared. We hope this newsletter will continue to uplift, encourage and inform.

Together We Can build a community of support for our families that are battling childhood cancer.

Mission

Heroes Circle Kids Kicking Cancer

By Lion Debra Petkus-Perry

Our mission is to serve children and families from the Upper Peninsula who are battling childhood cancer. We believe that when a child is sick, the entire family is affected. Our support focuses on the individual along with the entire family.

The Childhood Cancer program provides grants to families to minimize the financial hardship that is directly attributable to their child's diagnosis. This includes needs for travel, medical and household bills.

We rely solely on donations from private benefactors, sponsors, Lions Clubs and other community organizations, foundations and fundraisers. Every dollar earned goes directly to the families and to the programs that serve them.

Lion Christine Smith
UP Lions Serve Co-Founder
Upper Peninsula Lions
Childhood Cancer Chair

Power. Peace. Purpose. Three little words that take on a big meaning as a mantra of empowerment for a child caught in a whirlwind of procedures and treatments that can leave them feeling weak, vulnerable, and not in control.

By turning to Heroes Circle, also known as Kids Kicking Cancer, children and adults will be introduced to tools of imagery, empowerment, relaxation and movement in a unique non-contact way martial arts approach that allow them to self-regulate and overcome pain during moments of extreme stress.

The program has been around since 1999 when it was developed by Rabbi Elimelech Goldberg, who has a first-degree black belt, and is a clinical assistant professor in pediatrics at Wayne State University School of Medicine. He and his wife lost

a child to leukemia in 1982.

Since then, Heroes Circle has spread to twenty-one states and ten countries. They hold classes in lower Michigan and at camps. You don't have to travel to be a part of it, as they also offer on-line courses so you can participate in the comfort of your own home.

Michael Hunt (*pictured right*) is a Senior Martial Arts Therapist who teaches you to “breathe in the light and push out the darkness.” As a twenty-plus year cancer survivor he knows it works because he was enrolled in it as a youngster when it first began.

He was a guest speaker at the Lions April District Convention. He encourages all to become a member of the Heroes Circle, at no charge, and take part in this program that will teach kids to push out the bad feelings like

pain, fear and anger. It improves compliance which contributes to kids being a part of their healing.

Parents can register their child, teen or young adult and siblings are invited as well. There is never a charge for their services. Upon registration they will receive a super power kit. The adventure begins at heroescircle.org

See more information on Kids Kicking Cancer on the next page!

Is someone close to you battling Childhood Cancer?

We are inviting you to participate in "Kids Corner", a space where every child going through cancer or remission, their siblings, another child family member, a friend or a classmate can share a thought, a short story, quote, or poem. Or draw a picture about their experiences with cancer or just write or draw about something they love. They can talk about a favorite nurse or doctor, something that makes them happy or sad, or makes them feel strong. We invite kids to contribute any media they choose. Please send any contributions to:

By Chelsea Kleikamp

Shortly after his 3rd Birthday, our son Camden was given the opportunity of a LIFETIME. The social worker from his transplant hospital had referred him to the Michigan Chapter of the *Make-A-Wish Foundation* – and he was approved! Later that Spring, Camden's "wish" to meet the one & only Mickey Mouse came **TRUE!**

On 5/1/23, Camden & family were flown to sunny Orlando, FL for his wish-trip! We arrived later that afternoon & checked in to the magical "Give Kids the World Village!" This venue is a Wish Family **EXCLUSIVE** resort located in Kissimmee, FL – a resort where **EVERYONE** there "just gets it." A place where Wish Kids are honored like the warriors they truly are!

During his *magical* wish-trip, Camden & our family got to experience the very BEST of what Orlando offers. We visited all **FOUR** Disney Parks, **both** Universal Studios/IOA, **AND** SeaWorld in just five short days. We were able to meet **COUNTLESS** "characters," ride tons of rides, and eat **ALL** the good snacks.

Camden's "wish" came true in such a **BIG** way, and we are truly **FOREVER grateful** to Make-A-Wish Michigan for making it all happen for him! He was able to meet Mickey, Goofy, Donald, & the **WHOLE gang!!** We even got to "dine with the *orcas*" at SeaWorld!

Our entire family is left with a **LIFETIME** of memories we will cherish forever! It was truly **EVERYTHING** our son could have ever *dreamed of...* and **SO much more!**

After returning home, we were looking for a way to "give-back" to the foundation that made this all possible for our son. Recently, Camden's Mother, Chelsea, has started the process of becoming a "Wish Granter."

The Kleikamp family: Chris, Chelsea, Brayden, & Camden

To learn more about the Michigan Chapter of the Make-A-Wish Foundation visit: www.makeawishmichigan.org. Make sure to catch the next newsletter to hear about the various "Wish-Granting" Foundations serving children of the UP!

Therapeutic martial arts for kids & teens ages 3-18+

Equip your child with the tools to find **POWER. PEACE. PURPOSE.**

The Heroes Circle Pediatric Healing Program teaches martial arts meditation, non-contact movement and breathing techniques designed to empower children to take control of the pain and stress of their illness.

Our evidence-based program is taught in-person and virtually by black belt Therapeutic Martial Arts Instructors and is provided to families at no cost.

Children 3 years and older with ANY pediatric illness, and their siblings, are eligible for the program.

Are you ready to join our Heroes Circle community? Get connected today!

Book Corner

Book Review: *Hi, My Name is Jack*

by Christina Beall-Sullivan

This is a children's book specifically designed for the healthy siblings of chronically ill, disabled or dying children. The book addresses and focuses upon some of the feelings that may be experienced by healthy siblings. This book is unique in that it is not illness specific and does not focus on the illness itself. It is appropriate for a variety of illnesses and medical situations. *Hi, My Name is Jack* is a wonderful resource and tool to facilitate communication in families with a chronically ill, disabled, or dying child. It is appropriate for children between the ages of 3 and 12.

From the Author: This book was created as a result of my experiences as a neonatal intensive care nurse

practitioner. *Hi, My Name is Jack* gives healthy siblings a voice and a tool for expressing their individual feelings. The feelings discussed in this book are significant for children of all ages, including adults. Even young children may use the pictures in the book to create their own stories. Please use this book as a tool to allow others to express their feelings and most certainly to explore your own.
